ULTRA-DEFINED HENNA EYEBROWS*

25.00

This new leading vegan treatment is great for people wanting that long lasting brow. The henna stains the skin for up to 2 weeks and stays on the hair for up to 6 weeks as well as covering grey hairs. The treatment involves mapping the eyebrow, application of henna, waxing, threading, trimming and plucking.

EYEBROW LAMINATION*

30.00

This is a perfect treatment if you are wanting your brows to be sleek and always on point. A gentle chemical is brushed through the eyebrows to straighten the hairs creating the just brushed look which will last up to 8 weeks. Brow lamination is great for anyone whether you are wanting them to appear thicker and fuller, to cover scars or gaps or just to tame them or make them fluffy. Once this process has been done you will finish off by having an eyebrow wax and tint.

LVL*

38.00

Length, Volume and Lift. Exactly what this treatment does. This treatment straightens your natural eyelash from the root lifting it and then tinting it to make the eyelash appear longer and thicker.

A PATCH TEST IS REQUIRED 24 HOURS PRIOR TO THE TREATMENT*

EXPRESS EYELASHES

30.00

These eyelashes will last between 1 and 2 weeks.

CASHMERE CLASSIC EYELASHES 40.00

These eyelashes are very natural. Only one eyelash is applied to each one of your own creating length.

THE SIGNATURE FACIAL & BACK MASSAGE

55.00

This facial is 1 hour 15 minutes long, it is perfect if you are looking for a nice relaxing treatment. This starts with a relaxing back massage. Followed by double cleanse alongside Ozone steam; exfoliation and Microdermabrasion suction for comedone removal, a face, décolleté, neck and shoulder massage using the Gua Sha or Ice Globes. Followed by the doubled-up gel and Algae jelly mask for ultimate results.

PEEL & GLOW

40.00

The Peel & Glow Facial is perfect for that quick fix in 45 minutes; starting with a deep double cleanse and scrub with Ozone steam to open up the pores, priming the skin for the 20% Peel. Whilst the Peel is on you will receive a shoulder, neck and scalp massage. Extractions will be done if needed after the peel, followed by a highly nourishing & hydrating mask. The mild peel makes the skin a smoother surface with clearer pores. It also helps stimulate the collagen formation under the skin's surface, which helps plump up the skin from beneath, smoothing out fine surface wrinkles and superficial scars.

DERMAPLANING

45.00

The Dermaplaning treatment uses a scalpel blade to gently glide over the skin, deeply exfoliating the eliminations of dead skin cells and removing any fine vellus hair. The dead skin cells that sit in the hair on the face can give a dull, lacklustre complexion. The treatment is great for helping to restore a youthful, healthy and glowing complexion. Alongside the Dermaplaning; a deep double cleanse with Ozone steam, Microdermabrasion suction for comedone removal and an exfoliating enzyme peel along with a neck and shoulder massage will compliment this 60 minute treatment. Finishing off with the Algae jelly mask.

MICRODERMABRASION

45.00

The Diamond Tip Microdermabrasion is a deeply effective treatment that renews your skin and gives a fresher, younger-looking glow. This is achieved by using a light vacuuming action that takes away the dead skin cells and stimulates the circulation to increase the blood flow. The production of collagen and elastin is stimulated resulting in firmer looking skin. Any extractions will be done after the treatment alongside Ozone steam followed by a facial, neck and shoulder massage with the double up algae mask. The 60 minute Microdermabrasion facial can be used to reduce the appearance of fine lines, superficial blemishes and marks, improve congested skin, mild pigmentation problems and generally become part of an anti-ageing treatment routine.

THE BB RESURFACE & GLOW

98.00

The BB Resurface & Glow is a result driven facial which is 1 hour 30 minutes long. This complete facial combines many skin refining stages which are guaranteed to leave your skin glowing and rejuvenated. The treatment is designed to deeply exfoliate dead skin cells and remove vellus hair, leaving you with polished and glowing skin. This facial works from the outside in and helps to stimulate and increase the skins natural collagen and cell production. The BB Resurface and Glow includes a luxury deep cleanse; exfoliation and Ozone steam with extractions, Chemical Peel followed by Lymphatic Drainage massage with Ice Globes, Dermaplaning OR Microdermabrasion, Microneedling, Face, Neck and Shoulder massage, Double-up Gel Algae Jelly Mask. This facial will completely rejuvenate, resurface and replenish the skin leaving you with plump glowing skin.

MICRONEEDLING

80.00

Microneedling (also known as skin needling or collagen induction therapy) is a type of treatment that uses small needles via a roller or dermapen, to cause tiny punctures to the skin. These small contact points encourage the body to create a wound healing response and renew the skin cells. As your skin repairs, the production of collagen and elastin is triggered to give an almost immediate plumping effect, treating fine lines and wrinkles. The Microneedling treats scarring, uneven skin tone, rosacea, sun damage, pigmentation, open pores and dull skin. Along with this treatment you will start with a luxury double cleanse with ozone steam and extractions; exfoliating enzyme peel with a neck and shoulder massage, a specific ampoule concentrate applied to penetrate with the needling acting as a mesotherapy and the double-up gel and Algae jelly mask. Finishing off with a deep facial massage and a lymphatic drainage Ice Globe massage. This beneficial treatment is 1 hour 15 minutes.

All facials can be for a relaxing treat or for results. For results, facials are needed every 4-6 weeks.
