

Blush-Beauté

Each treatment is tailored to your needs in regards to shape, style, colour choice and whether they are natural, intense or dramatic.

All SPMU Treatments will have a free top-up 6 weeks after the initial treatment for the completed result.

Patch tests and consultation forms must be completed before the appointment.

MICROBLADING | £245.00

Microblading is very precise as the tool that is used is effectively like a pen with the nib being a sloped blade made up of little needles at the end - needles that don't penetrate the skin but just delicately scratch the surface. The needle very finely implants featherweight strokes with a medical grade pigment on the epidermis layer of the skin, creating fine, realistic and natural hair strokes. Microblading, unlike tattooing, is not in the deep layer of skin, but more on the surface. The degree of colour will usually fade and maintenance top ups are required every 12-18 months to ensure clarity of colour and design.

DIGITAL | POWDER | OMBRÉ | £245.00

Powder eyebrows are a semi-permanent make-up cosmetic procedure where the pigments are inserted using a dotting technique from a digital machine.

The machine uses a handheld pen with needles attached to it. The result resembles the look of makeup application, or a fresh eyebrow tint as ombré is a soft finish. However the results can be more intense or a lot more subtle depending on your preference. There are many advantages to choosing powder brows. It uses a more traditional tattooing method, which means that the results are longer lasting. Powder eyebrows are mainly carried out to create the ombré effect. The tails of the ombre powder eyebrows are darker and the front of the eyebrow, starts to fade, giving a three-dimensional look that only makeup can recreate. Powder eyebrows are there to help you create the desired fullness of your eyebrows, and create the exact design that you want. As a result, a more powdery eyebrow effect is achieved and a misty, powder filled brow is created.

COMBINATION EYEBROWS | £255.00

Combination eyebrows are the techniques of Microblading, Digital and Ombré Powder eyebrows combined. The effects that this combination creates are very fine hair strokes filled in with a smooth shading for an amazingly natural finish. The eyebrows can be ombré or just shaded depending on what each individual prefers. Again it is down to preference whether you would want them subtle or dramatic.

LIP BLUSH | £245.00

Lip Blush, Lip tattooing, Lip liner or Lip contouring are all the same treatment. This treatment reinforces the shape and accomplishes a 'natural' look to the lip, while avoiding any harsh or obvious demarcation lines. Aside from having a lip colour that won't fade or smudge, lip tattooing also defines the shape of the lips and depending on the technique, can make them look slightly larger too. If you have uneven lips, this can also be improved with tattooing. This technique can correct the shape of the lips to make them appear more balanced and symmetrical. It can also add definition to the edge of the lips to minimise the appearance of fine lines and give them a fresh and youthful look. This is carried out with the digital machine.

6 - 12 MONTH TOP UP | £145.00

13 - 24 MONTH TOP UP | £195.00

Top Ups are recommended every 12-18 months to keep the colour and definition to its best standard as fading will occur overtime. SPMU that has gone past 24 months will be charged at the full price. Top Ups must be Blush-Beauté's own work otherwise the treatment will be full price. Part tattooing of the eyebrows are also offered for treatment of any gaps in the eyebrow. Prices for this are to be confirmed at the consultation.

Consultations are needed for all new clients.

On booking, a deposit of £50.00 will be needed to confirm your appointment. This will be taken off your remaining balance after you're appointment.
